Connection diagram - Output plugs 1 - 3 can be used to connect the servos. Use the upper pins to connect the cables. - The main battery or an external battery can be used to power the servo controller. I suggest a 3S-4S external battery. Can also be used as Receiver powered by Ubec power input or Main controller **Signal** + Battery or **Electron** system LED-1-00+ LED-2 - ... **Manual Testting** LED-4 ---+ LED-5 - 00+ LED-6 - 00+ Input Voltage: 2S - 4S Servo outputs 1-3 Main battery or supplemental battery
